

Phoenix Naylors Abrasives Ltd

VALVE GRINDING AND LAPPING COMPOUND

Premium silicon carbide abrasive grit (SiC) within a grease mixed paste is ideal for fast cutting materials by a rolling and sliding action. For valve seats and disks use a **coarse V.G.C.** when you find extensive corrosion or deep cuts and scratches. Use a **medium V.G.C.** as a follow up to the coarse grade followed by a **fine V.G.C.** when the reconditioning process nears completion.

Product available: **COARSE**
MEDIUM
FINE

Available in two size options: 5kg plastic container
500gram plastic container
